

# COLLABORATE WITH CARE

IdeaPaint transforms virtually any surface into a boundless dry erase canvas, giving people and teams the space they need to communicate, collaborate and accelerate innovation.

## THE BIG IDEA

IdeaPaint can create the perfect spot for medical staff and administration to interact and keep up with the rigorous demands of hospital, healthcare, rehabilitative administration and patient care. Transform a wall in a patient's room, a nurse station, or an examination room into a hub of clean communication that aligns administrators, doctors and nurses without adding germ collecting surfaces. With IdeaPaint, you can make all of your knowledge transparent and invite open collaboration in a setting where teamwork saves lives.

## THE IDEAPAIN ADVANTAGE

- High performance, erases cleanly every time
- Easy, single-coat installation
- Cost effective
- Warranty of up to a lifetime
- Comes in White, Clear and Core Color Pallet
- Dedicated IdeaPaint support team
